COMMENTS

1. List the most valuable learning experiences you have gained from this course and this instructor.

From a practical sense, the discussion of the "baith movement" and Suburban Nation provided material for changing my city, and my individual urban environment.

From a philosophical and academic sense, I felt that I gained much insight into philosophy and academic discourse.

2. What would you change about this course and/or this instructor to make them more effective?

I felt the instructor was too ambitious in the selection of material. We were unable to complete all the readings. I thought all the material was great. The course started with ancient philosophy - Plato - perhaps we could start a bit later in history?

3. Other general comments:

The instructor's enthusiasm for the course and the material was wonderful. Dr. Smith's command of the material was very helpful and the discussion was well-focused, informative and interesting.
