1. List the most valuable learning experiences you have gained from this course and this instructor.

learned a lot of things that I was unaware of before, brought a lot of stuff together for me

2. What would you change about this course and/or this instructor to make them more effective?

I would want to cover more of the material during class instead of spending too much time on a portion of it that we are tested on

3. Other general comments:

enjoyed class

Why I do the things I do everyday, are much clearer and I am able to understand/know myself in that respect.

2. What would you change about this course and/or this instructor to make them more effective?

More effective? More enjoyable would be to be able to meet more often & have time to discuss.

Prof. Smith is very effective.

Class was interesting - presentation was exceptional.

Prof. Smith is very knowledgeable in this subject and found ways to relate it to his students.

END CLASS ON TIME! Also maybe assign homework, LESS READING and/or clarify what reading is expected / to be done for next class.

I felt like
the info I grasped
was not the correct info.
w/o homework, I didn't realize
this until test time.

3. Other general comments:

The readings were hard to keep up with. There were so many, and they were so in depth. I frequently came to class tired, but left more awake. Class was definitely interesting, just not my forte. Prof. Smith is an excellent teacher - it's not his fault theology is not my thing.
